Dan, As you know, we're looking to Rob for Hunters Pt support, and he's been very helpful the last few days. I've asked Lily to give me some input for specific tasks over the next 6 months. I told her to keep it short, but am still waiting on her as she's preparing for a big rad community meeting Thursday night.

John

This is an invitation to the SFD9 Strategic Planning share point site. I have posted a template for a work plan for Robert Terry that I would like you all to fill in the blanks on re: radiation and health physics related work that you need Robert Terry's assistance on. It is in the labeled folder on the home page.
